maGic

MID-ATLANTIC GIGABIT INNOVATION COLLABORATORY

PO Box 517, Westminster, Maryland 21157

www.magicinc.org
Info@magicinc.org

OUR MISSION

To build a tech ecosystem that creates and nurtures talent, entrepreneurship, and tech businesses; elevating the Westminster gigabit community to lead the Mid-Atlantic region

FROM THE EXECUTIVE DIRECTOR

MAGIC celebrated 3 years as a nonprofit this year and what a year it was! We expanded our tech ecosystem through new partnerships, increased our student participation in our tech events, and engaged a growing group of volunteers. Over the 2 years I served as MAGIC's Executive Director, I have enjoyed working along side and getting to know this passionate community of tech professionals, talented students, entrepreneurs, and tech businesses. I will miss you all dearly and I am excited to see where MAGIC's next Executive Director takes the Westminster Gigabit Community in the coming years!

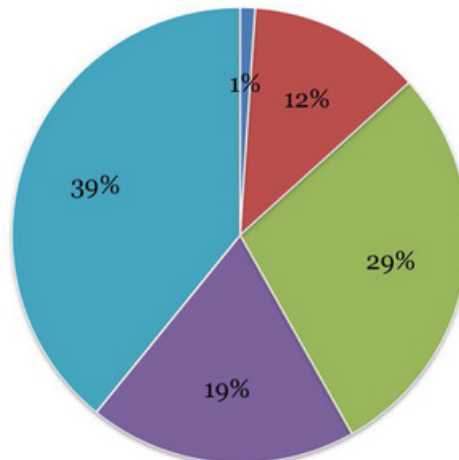

MAGIC concluded another amazing year of rapid growth of existing successful programs like Capture the Flag, Healthy Smart Home, and the Carroll County Hackathon, as well launching several new programs and projects like Cyber Camp, Cluster Computing, and the Crowd-Sourced Drone Environmental Mapping project with Carroll Community College. Most importantly, several MAGIC student participants, after moving into volunteer and mentor roles, acquired full time employment with local tech companies. This is another step forward in the long journey to creating a thriving entrepreneurial tech ecosystem, and we're well on our way! Lastly, congratulations and Bon Voyage to our Executive Director Amy Rupp, who is venturing off on her own entrepreneurial journey. Amy's hard work and dedication to MAGIC's mission put the organization in strong shape for continued success. Thank you Amy!

FY19 HIGHLIGHTS

MAGIC attracted over 290 unique participants during 9 sponsored events in 2019

July 2018

Arduino Boot Camp - July 16-20, 2018

High school & college students learned how to incorporate arduino technology to create sensors that could be utilized in conjunction with the Healthy Smart Home project

September 2018

Project eReboot- September 15, 2018

High school students fought against the zombie apocalypse while building a computer from scratch with recycled computer parts.

November 2018

Capture the Flag 006- November 3, 2018

High school & college students compete for top prize in this entry level cybersecurity competition

Cluster Computing - November 21, 2018

Area high school and college students push the tech envelop to make computing magic happen.

February 2019

Carroll County Hackathon- February 22-24, 2019

Students from all over the Mid-Atlantic region participated in this intensive "build an app in a weekend" competition.

March 2019

Celebrating History Expo - March 2, 2019

MAGIC presented at the expo highlighting our MainStar project

April 2019

Maryland Cybersecurity Awards - April 11, 2019

MAGIC was named a finalist in the annual CAMI Cybersecurity Awards. MAGIC walked away with top honors in the category of "Cybersecurity Industry Resource".

Capture the Flag 007 - April 13, 2019

Another successful CTF in the books with 8 host locations including Equador, Estonia, and the US with over 100 participants.

BSides Charm- April 27, 2019

BSides Charm is a regional information security conference. MAGIC was invited as one of three nonprofits to the conference.

June 2019

Cyber Club - June, July, August 2019

Weekend cybersecurity club that delves into the world of Cybersecurity for middle & high school students.

OUR VOLUNTEERS ARE MAGIC

Our volunteers have given over 1500 hours of their time to forward MAGIC's mission. We couldn't do this without you!

”

While I could say the things I did when I participated in the Hackathon as a student were satisfying, the biggest feeling of gratification came when I returned to volunteer at the 2019 Hackathon.

GIVING BACK

MAGIC works hard to enhance our community by introducing a tech ecosystem to enrich our technology base. We can't do it alone. Your donations help us promote and nurture this ecosystem and your volunteer time is a priceless investment in Westminster.
