

MID-ATLANTIC GIGABIT INNOVATION COLLABORATORY

ANNUAL REPORT

July 1, 2017—June 30, 2018

MAGIC's Mission: build a tech ecosystem that creates and nurtures talent, entrepreneurship, and tech businesses, elevating the Westminster gigabit community to lead the Mid-Atlantic region

MAGIC Inc, | Mid-Atlantic Gigabit Innovation Collaboratory |

P.O. Box 517, Westminster, MD 21157 | <http://magicinc.org>

From the Executive Director

MAGIC completed another year of successful events and programming, growing our local tech ecosystem beyond expectations. As you can see on the list of accomplishments on the next page, we continue expanding our partnerships, student participation, and variety of events. Working with such passionate and creative technology professionals like our volunteers certainly is energizing, but what I love best about leading this organization is the excitement and engagement of the students we serve, knowing they are the catalysts for

creating new opportunity, not just for themselves, but the entire community. Next year is going to be even better!

- Amy Rupp, MAGIC Executive Director

From the Board of Directors

We continue the difficult strategic work of creating a vibrant and dynamic technology ecosystem to drive economic growth and create new jobs and companies for future generations. Such a complex and ambitious task doesn't happen overnight, but already, in just the few short years we've been at it, change is happening. This year's success shows our local youth and entrepreneurs have an insatiable appetite for MAGIC events and programs, and we are beginning to see the emergence of the positive feedback loops (collaboration, student

driven events, expanded partnerships) that are necessary for explosive tech-driven economic growth. Stay tuned for more excitement in FY19!

- Robert Wack M.D. President, Board of Directors
